

# WaterSentinel®

## IN1030

### HIGH CAPACITY INLINE WATER FILTER

#### ADVANCED FILTRATION TECHNOLOGY

This High Capacity 30,000 gallon WaterSentinel® inline water filter contains high quality, granular activated coconut carbon and KDF media which provides tremendous capacity to remove and/or reduce impurities and sediment that may be present in your drinking water. Additionally, this filter can catalytically breakdown other impurities very similar to the way a catalytic converter works in your automobile. These processes ensure that you are getting the cleanest and best tasting water possible. Perfect for residential and commercial ice makers, refrigerators, drinking fountains, coffee and tea brewers, motor homes and campers. Reduces scale build-up in appliances and inhibits bacterial growth.

This economical filter will provide you with fresh and clean tasting water and ice cubes.

#### FILTER FEATURES:

- Reduces 99% of Chlorine\*
- Economical alternative to expensive substitutes
- Delivers clean, clear water that looks and tastes great
- Will remove or reduce chlorine taste and odor that may be present in your drinking water
- Designed to provide up to 30,000 gallons
- Does not remove minerals which may be beneficial to health

#### SPECIFICATIONS:

<b>Flow Rate:</b>	.5 gpm (1.89 lpm)
<b>Operating Temperature:</b>	33°-100°F (0.6°-38°C)
<b>Min Operating Pressure:</b>	30 psi (207 kPa)
<b>Max Operating Pressure:</b>	100 psi (689 kPa)
<b>Life:</b>	30,000 gallons (113,562 liters)

This filter should not be used with water that is microbiologically unsafe or of unknown quality, without adequate disinfection before and/or after the filter.

\*This filter has been tested by the manufacturer against ANSI/NSF Standard 42 for the reduction of chlorine taste and odor.
