

WaterSentinel®

WSP-1

AUTOMATIC WATER DISPENSER FOR PETS

COOL FRESH FILTERED WATER

Provide a continuous supply of safe, clean, great tasting water for your pet. The WaterSentinel® WaterQuik™ Automatic Water Dispenser for Pets easily connects to any standard outdoor faucet or spigot. The unique valve is activated when your pet depresses the spring loaded valve stem, supplying fresh filtered water on demand. Manufactured in the USA, the WaterQuik™ Automatic Water Dispenser for Pets uses NSF Certified materials in order to ensure the highest quality, safety and filtering capability. Using a renewable resource, the WaterQuik™ Automatic Water Dispenser for Pets uses coconut shell carbon in order to provide the highest quality drinking water for your pet.

This easy to install filter does not require any plug or batteries to operate. In addition there is no messy clean up since the water dispenser does not require any special bowl.

Perfect solution for keeping your pets properly hydrated while they are outdoors.

FILTER FILTERS:

- Easy to install
- Provides a continuous supply of crisp, clean drinking water on demand
- Unique valve activated when tip is depressed
- Coconut shell carbon to ensure the highest quality of water filtration
- No batteries or plug required
